- Sewing Classes -

Introduction to Sewing

Always wanted to learn to sew? This beginner's course shows you all the important basics. While learning to use a sewing machine and an overlocker, students create samples to use as a reference. In the final lesson, students cut out their own skirt in calico to fit and create a customised pattern, this skirt will be completed in the next course, 'Start to Sew 1'.

This course is recommended for those who have never sewn or have not sewn for a while.

Material requirements - This course includes a sample workbook, calico and a beginners sewing kit comprising scissors, thread, chalk, ruler, pins and needles etc.

Start to Sew 1

In this course, students complete a calico skirt known as a toile. The toile teaches students about their body shape. Students are then taught to alter the commercial pattern for a perfect fit. The customised pattern will then be constructed in the student's own fabric. After twenty hours of tuition, students have developed sound skills and are equipped to move on to the next course, 'Start to Sew 2'.

Material requirements - students to provide all materials and a sewing kit.

- Start to Sew 2 -

In this course, the focus is on understanding the pattern guide sheet instructions. Students purchase a pattern of their choice and whilst making the garment, gain a fuller understanding of the symbols, language and methods used in constructing a garment through the support of their pattern guide sheet. Textiles, pattern and fabric selection and tools of the trade will be discussed throughout the course.

Material requirements - students to provide all materials and a sewing kit.

Garment Construction

Student's who have completed the Start to Sew 2 course, move on to Garment Construction. The aim of this course and all further study is for students to be exposed to the different elements that make up a garment, for example a collar and sleeves on a shirt. Students will construct a garment of their choice. It is advised that students trial their pattern in calico. Please note: If you are an experienced sewer, you are welcome to enrol in this course.

Material requirements - students to provide all materials and a sewing kit.

- One Day Sewing Workshops -

Students must be able to use a sewing machine and have sound sewing skills. These workshops are not for beginners.

Come and join a one day sewing workshop. This workshop has been developed for anyone who just loves to sew. Personally I can't think of anything nicer than spending a whole day immersed in a sewing project while meeting like minded people.

Suggested Projects – Garment construction, sewing with knit fabrics, cushion making, bag making.

Please refer to some recommended relaxed fit, easy to sew garments below.

Material requirements – If you are making a bag, cushion or knit garment to save time on the day I recommend that you prepare your sewing project. Pre-cut and mark all pieces and apply interfacing if required. For those making a woven garment I recommend cutting the pattern out in calico and sewing it up ready for a fitting. Students to provide all materials.

Machine and tool requirements – Sewing machines and overlockers are available for students to use, you are welcome to bring your own sewing machine. Students to provide a sewing kit.

Students are welcome to enrol in these workshops as often as they wish. Please call Vikki to discuss your project on 0417 597 189

Sew with Vikki Leigh Martin

Covid Safe Plan

Business Name - Sew with Vikki Leigh Martin

Address - 12/325 Centre Rd, Bentleigh 3204

Plan completed by - Vikki Martin

Job Title - Director

Date Reviewed - 10 / 11 / 2021

Next Review - 25 / 01 / 2022

1	You must be fully vaccinated to attend classes.
2	Please do not attend class if you are unwell.
3	Social distancing - Keep 1.5 metres away from other students, don't shake hands or hug as a greeting.
4	Masks – Masks must be worn when mandatory except for those students with a medical condition.
5	Practice good hygiene - Sanitise your hands as you enter the classroom. Sanitise your hands after blowing your nose, coughing, sneezing and using the toilet. Cover your nose and mouth when you cough or sneeze with a tissue. Tissues can be placed in the small bin on your workstation
6	Record Keeping - Use the QR Code provided using your smart phone. The QR Code will also display your vaccination status, you can also use a printed copy of your COVID – 19 digital certificate. You will find a QR Code in the doorway and one on your workstation.
7	The new classroom set up - I have created five separate workstations to comply with the 1.5m social distancing rule. There will be a maximum of five students per class.
8	Teacher Guidance – When student guidance is not required, I will adhere to the 1.5m rule.
9	Cleaning – I will be cleaning the workstations, bins and cutting tables at the end of each class. At the workstations you will find antibacterial wipes. Machinery that belongs to you, sewing bags and iron handles need to be wiped down prior to commencing the class. You also have a small bin for these used items. At the end of the class, the waste will be placed in the large bin.
10	Food and Drink - Do not bring food to class however you are welcome to leave the room and have a bite to eat. You are welcome to bring your own drinks, containers to be discarded in the bin at the front of the room marked “drink containers”.
11	The kitchen/changing room will only be used as a changing room. The kitchen area, kettle, microwave, sink and fridge will not be in use during this time.
12	Avoid shared use - You should not share tools with your fellow students. I will discuss the list of items you will need to bring to class upon enrolment. You are welcome to use my machinery.
13	Enclosed spaces and ventilation - The front door will be open, weather permitting. The back window will be open at all times.

These protocols have been developed to create a safe environment for all of us - Vikki
